

# 1991 Editorial Index

In the listings below, Special Issue refers to "Point-of-Care Testing: A Laboratory Guide to Meeting Changing Demands" (Vol. 23, No. 9S), published in September.

Vol. 23, Nos. 1-12

Subject Index	Page 73
Author Index	76
Management Q & A Index	78
Tips on Technology Index	79
Washington Report Index	80

## SUBJECT INDEX

### Accreditation

(see *Inspection and accreditation*)

### AIDS

AIDS: The cost of universal precautions (Editor's Memo). Feb/9  
 CDC weighs stronger AIDS precautions (Washington Report). April/19  
 Laboratories: On the front lines of exposure (AIDS conference report). Aug/54  
 CAP reviews AIDS policy (Washington Report). Sept/22  
 AIDS: Medical groups balk at naming high-risk procedures (Editor's Memo). Oct/9  
 OSHA rules on AIDS protection due by Dec. 1 (Washington Report). Nov/21

### Alternate-site testing

Alternate-site testing: Adjusting to a new trend (Viewpoint). March/17  
 Why testing is being moved to the site of patient care. Special Issue/2  
 The evolving needs of critical care. Special Issue/6  
 Meeting the special needs of the open heart surgery patient. Special Issue/12  
 The role of the laboratorian on the critical care team. Special Issue/16  
 Monitoring versus testing technologies: Present and future. Special Issue/20  
 Technology's answer to labor and resource constraints. Special Issue/32  
 A respiratory care view of point-of-care blood gas and electrolyte testing. Special Issue/37  
 A risk management perspective on point-of-care testing. Special Issue/42  
 How accelerated regulation will affect point-of-care testing. Special Issue/47

### Bedside testing

(see *Alternate-site testing*)

### Benefits and perks

Lab salaries make altruism still a vital component (Special Report). Jan/28

### Biohazards

(see *Waste disposal*)

### Blood banking

Equal pay for phlebotomists (Editor's Memo). May/9  
 How internships eased our phlebotomist shortage. May/65  
 A community blood center user group. July/47

### Budgeting

(see *Financial management*)

### Burnout

(see *Stress and burnout*)

### Career development

Helping the plateaued employee reach a new level of confidence. Feb/37  
 The varied and useful role of the pathologists' assistant. March/33  
 Which way is up? (Viewpoint). April/17

Hazardous material officer: Opportunity for laboratorians. April/51  
 We built a career ladder for our clerical staff to climb. June/43  
 My useful niche as send-out technologist. June/59  
 The role of the laboratorian on the critical care team. Special Issue/16  
 What it takes to be a successful consultant. Oct/47

### Career ladder

(see *Career development*)

### Certification and licensure

Assessing linearity the easy way. June/33  
 JCAHO to allow Ph.D. lab directors (Washington Report). Oct/22  
 Certification of laboratorians: An update. Oct/26  
 The making of a new certification exam. Oct/38

### Cholesterol screening

(see *Public health screening*)

### CLIA

(see *Government relations; Regulations; Washington Report Index*)

### Client satisfaction

(see *Customer relations*)

### Communication

You can learn a lot from your new employees. Jan/45  
 Dynamics of the lab-vendor relationship. March/41  
 Is anyone out there listening? (Viewpoint). Sept/19  
 Managing change in troubled times. Sept/24  
 Get what you want through the fine art of negotiation. Nov/24  
 A hard look at performance reviews. Nov/61  
 Achieving the customer-oriented laboratory. Dec/29

### Computers

Reliable instrument maintenance with a PC (Computer Dialog). Jan/77  
 Utility software programs to unclutter your PC (Computer Dialog). Feb/61  
 Computer graphs clarify linear regression modules. March/56  
 Programming spreadsheet graphics on a PC (Computer Dialog). March/67  
 Taking the "byte" out of method evaluation number crunching (Computer Dialog). April/65  
 Strengthening the weak links in lab services. May/30  
 How someone could make a fortune by marketing good laboratory computers (Computer Dialog). May/75  
 Lookup tables to speed data entry and reduce errors (Computer Dialog). June/72  
 A database design for a laboratory handbook (Computer Dialog). July/73  
 Personal computers in the clinical laboratory (Part I): Available in most labs, fully utilized by few (National Survey). Aug/24  
 Personal computers in the clinical laboratory (Part II): Fighting resistance, many use PCs in wise and creative ways (National Survey). Aug/32  
 Integrating an LIS into a PIN. Aug/45  
 The future of computer-aided diagnosis in the laboratory (Computer Dialog). Aug/71  
 Simplify humdrum PC tasks with batch files (Computer Dialog). Sept/63

Structuring your RFI and RFP for an objective LIS evaluation (Computer Dialog). Oct/71  
 Pulling the plug on an LIS project that failed (Computer Dialog). Nov/65  
 A spreadsheet system for managing workload data (Computer Dialog). Dec/41

### Continuing education

(see *Education*)

### Crisis management

(see *Emergencies*)

### Criticism

(see *Discipline and counseling*)

### Cross-training

Cross-training: Boon or bane? (Editor's Memo). Aug/9

### Current Procedural Terminology

(see *Reimbursement*)

### Customer relations

Updating management skills for the '90s (Viewpoint). Nov/17  
 Achieving the customer-oriented laboratory. Dec/29

### Design

(see *Laboratory design*)

### Discipline and counseling

Helping the plateaued employee reach a new level of confidence. Feb/37  
 Handling criticism (Part I): Giving constructive criticism with aplomb. March/24  
 Handling criticism (Part II): Receiving criticism with confidence. April/56  
 Turning around the behavior of uncooperative employees. Oct/59  
 The deficient supervisor: A special breed of performance problem. Dec/33

### DRGs

(see *Reimbursement*)

### Drug abuse testing

Voluntary drug testing for high school students. March/29

### Education

Introducing high school students to the clinical lab. Jan/71  
 Continuing education in the boon docks. Feb/57  
 The varied and useful role of the pathologists' assistant. March/33  
 An MT student on the Navajo reservation. March/50  
 Short course updates physicians' microbiology skills. May/37  
 How internships eased our phlebotomist shortage. May/65  
 Cross-training: Boon or bane? (Editor's Memo). Aug/9  
 Certification of laboratorians: An update. Oct/26  
 The making of a new certification exam. Oct/38  
 Designing an in-house phlebotomy training program. Oct/43

# 1991 Editorial Index

## Emergencies

Dealing with laboratory crises before they happen. May/57

## Equipment

(see *Instrumentation*)

## Ethics

The growing crackdown on laboratory fraud and abuse. Feb/24

Ethics and the clinical laboratory (Part I): How ethical dilemmas induce stress. July/28

Ethics and the clinical laboratory (Part II): What has happened to patient confidentiality? Aug/38

Ethics and the clinical laboratory (Part III): Laboratory quality and economic necessity: Values in collision. Sept/49

## Evaluations

(see *Performance standards and evaluations*)

## Financial management

AIDS: The cost of universal precautions (Editor's Memo). Feb/9

At last, a guide to cost accounting in the lab. May/53

Which diversification strategies pay off? (Editor's Memo). June/9

Ethics and the clinical laboratory (Part III): Laboratory quality and economic necessity: Values in collision. Sept/49

Pulling the plug on an LIS project that failed (Computer Dialog). Nov/65

## Fraud and abuse

The growing crackdown on laboratory fraud and abuse. Feb/24

Judge rejects key IG arguments in kickback case (Washington Report). May/23

Hanlester decision overturned, sent back (Washington Report). Nov/22

## Fringe benefits

(see *Benefits and perks*)

## Government relations

CLIA issues help unify lab groups (Washington Report). Jan/25

Who's to blame for high health care costs? (Editor's Memo). April/7

The medical waste outcry: A personal update. April/40

Judge rejects key IG arguments in kickback case (Washington Report). May/23

AIDS: Medical groups balk at naming high-risk procedures (Editor's Memo). Oct/9

OSHA rules on AIDS protection due by Dec. 1 (Washington Report). Nov/21

## Hazardous waste disposal

(see *Waste disposal*)

## Health care trends

(see also: *AIDS; Government relations; Washington Report Index*)

Alternate-site testing: Adjusting to a new trend (Viewpoint). March/17

Who's to blame for high health care costs? (Editor's Memo). April/7

Which diversification strategies pay off? (Editor's Memo). June/9

A physician glut by 2000? (Editor's Memo). July/9

The winds of change are blowing in the lab (Viewpoint). Aug/19

Ethics and the clinical laboratory (Part II): What has happened to patient confidentiality? Aug/38

Laboratorians: On the front lines of exposure (AIDS conference report). Aug/54

High tech gone awry (Editor's Memo). Sept/9

Ethics and the clinical laboratory (Part III): Laboratory quality and economic necessity: Values in collision. Sept/49

Is your hospital ready for CQI? (Editor's Memo). Dec/9

## Hepatitis B

(see *Infection control*)

## HIV infection

(see *AIDS*)

## Image

(see *Professional image and status*)

## Infection control

What every laboratorian should know about RSV. Jan/53

AIDS: The cost of universal precautions (Editor's Memo). Feb/9

CDC weighs stronger AIDS precautions (Washington Report). April/18

Laboratorians: On the front lines of exposure (AIDS conference report). Aug/54

OSHA rules on AIDS protection due by Dec. 1 (Washington Report). Nov/21

Commonly asked questions about hepatitis B vaccination. Nov/31

## Inspection and accreditation

Preparing the small lab for a first state inspection. April/61

Is your hospital ready for CQI? (Editor's Memo). Dec/9

How to earn perfect scores from your JCAHO surveyor. Dec/37

## Instrumentation

(see also: *Computers*)

Reliable instrument maintenance with a PC (Computer Dialog). Jan/77

Dynamics of the lab-vendor relationship. March/41

Strengthening the weak links in lab services. May/30

Starting a user group for a chemistry analyzer. July/44

Pitfalls to avoid in bringing a new analyzer on line. Sept/28

## Interdepartmental relations

Integrating an LIS into a PIN. Aug/45

The role of the laboratorian on the critical care team. Special Issue/16

## Job satisfaction

Helping the plateaued employee reach a new level of confidence. Feb/37

Walking the new-supervisor tightrope. Feb/52

Satisfaction surveys improved our employee retention. May/49

## Laboratory design

Strengthening the weak links in lab services. May/30

Pitfalls to avoid in bringing a new analyzer on line. Sept/28

Managing the transition to a certified toxicology lab. Sept/58

## Laboratory information system

(see *Computers*)

## Laboratory of the future

Alternate-site testing: Adjusting to a new trend (Viewpoint). March/17

The future of computer-aided diagnosis in the laboratory (Computer Dialog). Aug/71

Monitoring versus testing technologies: Present and future. Special Issue/20

## Laboratory ownership

Laboratory fee roll-in studied by HHS (Washington Report). Feb/19

The growing crackdown on laboratory fraud and abuse. Feb/24

Judge rejects key IG arguments in kickback case (Washington Report). May/23

Which diversification strategies pay off? (Editor's Memo). June/19

Safe harbor regs clarify physician lab investments (Washington Report). Sept/21

A look at physician-owned labs (Editor's Memo). Nov/9

Hanlester decision overturned, sent back (Washington Report). Nov/22

## Laboratory utilization

Running a laboratory in the Information Age (Viewpoint). Oct/17

## Laboratory ventures

A community cholesterol screen: Five days, 8,656 tests. Feb/44

Voluntary drug testing for high school students. March/29

Recycling xylene saves money and the environment. July/55

Promotional health screening as a marketing tool. July/63

On the move with Children's Hospital. Nov/50

## Legal issues

The growing crackdown on laboratory fraud and abuse. Feb/24

## Licensure

(see *Certification and licensure*)

## Linearity

(see *Method evaluation*)

## Maintenance

(see *Instrumentation*)

## Management techniques

(see also: *Retention; Staff relations; Management Q & A Index*)

Walking the new-supervisor tightrope. Feb/52

Handling criticism (Part I): Giving constructive criticism with aplomb. March/24

Handling criticism (Part II): Receiving criticism with confidence. April/56

If performance palls, look below the surface (Viewpoint). May/19

Risk taking: A supervisory imperative. June/68

Is anyone out there listening? (Viewpoint). Sept/19

Managing change in troublous times. Sept/24

Measuring performance and promotability of middle managers. Sept/38

A temporary supervisor reports from the front lines. Oct/55

Turning around the behavior of uncooperative employees. Oct/59

Updating management skills for the '90s (Viewpoint). Nov/17

Get what you want through the fine art of negotiation. Nov/24

Imperative skills for today's lab manager (Viewpoint). Dec/17

The deficient supervisor: A special breed of performance problem. Dec/33

## Marketing

(see *Laboratory ventures*)

## Medicare/Medicaid

(see *Reimbursement*)

## Method evaluation

Computer graphs clarify linear regression modules. March/56

Programming spreadsheet graphics on a PC (Computer Dialog). March/67

Taking the "byte" out of method evaluation number crunching (Computer Dialog). April/65

Assessing linearity the easy way. June/33

## Microbiology

Short course updates physicians' microbiology skills. May/37

## MLO

Your choices for the best of MLO in 1990 (Editor's Memo). March/9

# 1991 Editorial Index

MLO advisor appointed (Editor's Memo). Aug/9  
Our man in Washington (Editor's Memo). Nov/9  
The winners of MLO's 1991 Article Awards Contest. Nov/59

## Morale

(see Staff morale)

## Motivation

Let's look at the bright side (Viewpoint). Jan/16  
If performance palls, look below the surface (Viewpoint). May/19  
Making employee commitment a self-fulfilling prophecy (Viewpoint). June/19  
Managing change in troublous times. Sept/24  
Managing the transition to a certified toxicology lab. Sept/58

## Negotiation

Why do nurses earn more than technologists? (Viewpoint). Feb/17  
Dynamics of the lab-vendor relationship. March/41  
Managing change in troublous times. Sept/24  
Turning around the behavior of uncooperative employees. Oct/59  
Structuring your RFI and RFP for an objective LIS evaluation (Computer Dialog). Oct/71  
Get what you want through the fine art of negotiation. Nov/24

## Off-site testing

(see Alternate-site testing)

## Orientation

You can learn a lot from your new employees. Jan/45

## Patient information network

(see Computers)

## Patient relations

Ethics and the clinical laboratory (Part II): What has happened to patient confidentiality? Aug/38

## Performance standards and evaluations

Why and how to establish criteria-based performance standards. Jan/61  
If performance palls, look below the surface (Viewpoint). May/19  
To document performance, put it in writing (Viewpoint). July/21  
Measuring performance and promotability of middle managers. Sept/38  
Turning around the behavior of uncooperative employees. Oct/59  
A hard look at performance reviews. Nov/61  
The deficient supervisor: A special breed of performance problem. Dec/33

## Personnel shortage

How internships eased our phlebotomist shortage. May/65

## Phlebotomy

Equal pay for phlebotomists (Editor's Memo). May/9  
How internships eased our phlebotomist shortage. May/65  
Ethics and the clinical laboratory (Part I): How ethical dilemmas induce stress. July/28  
Designing an in-house phlebotomy training program. Oct/43

## Physician relations

Short course updates physicians' microbiology skills. May/37

## Physicians' office laboratories

Continuing education in the boondocks. Feb/57  
Preparing the small lab for a first state inspection. April/61

Judge rejects key IG arguments in kickback case (Washington Report). May/23  
Safe harbor regs clarify physician lab investments (Washington Report). Sept/21  
Hanlester decision overturned, sent back (Washington Report). Nov/22

## Planning

Strengthening the weak links in lab services. May/30  
Dealing with laboratory crises before they happen. May/57  
Pitfalls to avoid in bringing a new analyzer on line. Sept/28  
On the move with Children's Hospital. Nov/50

## Point-of-care testing

(see Alternate-site testing)

## POLs

(see Physicians' office laboratories)

## Position descriptions

Why and how to establish criteria-based performance standards. Jan/61  
Which way is up? (Viewpoint). April/17  
JCAHO to allow Ph.D. lab directors (Washington Report). Oct/22

## Preventive maintenance

(see Instrumentation)

## Procedures, policies, protocols

What every laboratorian should know about RSV. Jan/53  
Dealing with laboratory crises before they happen. May/57  
Using referral labs efficiently (Part III): How to get the best service from a referral laboratory. Aug/63

## Productivity

If performance palls, look below the surface (Viewpoint). May/19  
Managing the transition to a certified toxicology lab. Sept/58  
Running a laboratory in the Information Age (Viewpoint). Oct/17  
A spreadsheet system for managing workload data (Computer Dialog). Dec/41

## Professional image and status

Let's look at the bright side (Viewpoint). Jan/16

## Proficiency testing

Lab regulators gain penalty options under CLIA sanctions (Washington Report). June/23

## Promotions

Helping the plateaued employee reach a new level of confidence. Feb/37

## Prospective payment

(see Reimbursement)

## Public health screening

A community cholesterol screen: Five days, 8,656 tests. Feb/44  
Voluntary drug testing for high school students. March/29  
Promotional health screening as a marketing tool. July/63

## Public relations

A community cholesterol screen: Five days, 8,656 tests. Feb/44

## Purchasing

AIDS: The cost of universal precautions (Editor's Memo). Feb/9  
Dynamics of the lab-vendor relationship. March/41  
Pitfalls to avoid in bringing a new analyzer on line. Sept/28

Structuring your RFI and RFP for an objective LIS evaluation (Computer Dialog). Oct/71  
Get what you want through the fine art of negotiation. Nov/24

## Quality assurance

Instituting a multiple-site urinalysis QC program. Jan/39  
When MTs mind the Paps: QA for send-out tests. Feb/31  
Computer graphs clarify linear regression modules. March/56  
Programming spreadsheet graphics on a PC (Computer Dialog). March/67  
Assessing linearity the easy way. June/33  
Integrating an LIS into a PIN. Aug/45  
Technology's answer to labor and resource constraints. Special Issue/32  
Covering the bases with a new QA program. Sept/43  
Q-Probes: A tool for enhancing your lab's QA. Nov/37  
Is your hospital ready for CQI? (Editor's Memo). Dec/9

## Quality control

Instituting a multiple-site urinalysis QC program. Jan/39  
Computer graphs clarify linear regression modules. March/56  
Programming spreadsheet graphics on a PC (Computer Dialog). March/67  
Preparing the small lab for a first state inspection. April/61  
Making employee commitment a self-fulfilling prophecy (Viewpoint). June/19  
Technology's answer to labor and resource constraints. Special Issue/32  
A respiratory care view of point-of-care blood gas and electrolyte testing. Special Issue/37

## Record keeping

Integrating an LIS into a PIN. Aug/45  
How to earn perfect scores from your JCAHO surveyor. Dec/37

## Recycling

(see Waste disposal)

## Referral laboratories

Using referral labs efficiently (Part I): The make-or-buy decision. June/28  
My useful niche as send-out technologist. June/59  
Using referral labs efficiently (Part II): Tips on evaluating and monitoring quality. July/35  
Using referral labs efficiently (Part III): How to get the best service from a referral laboratory. Aug/63  
Covering the bases with a new QA program. Sept/43

## Regulations

(see also: Washington Report Index)

AIDS: The cost of universal precautions (Editor's Memo). Feb/9  
The growing crackdown on laboratory fraud and abuse. Feb/24  
Is your staff wise in waste management? April/24  
New directions in Federal regulations on hazardous waste. April/31  
The medical waste outcry: A personal update. April/40  
Hazardous material officer: Opportunity for laboratorians. April/51  
HCFA announces CLIA sanctions (Washington Report). May/26  
Lab regulators gain penalty options under CLIA sanctions (Washington Report). June/23  
CLIA costs under study (Washington Report). June/24  
Assessing linearity the easy way. June/33  
CLIA '88 lurches ahead as Congress prods (Washington Report). July/23  
How accelerated regulation will affect point-of-care testing. Special Issue/47  
Safe harbor regs clarify physician lab investments. Sept/21

## 1991 Editorial Index

CAP reviews AIDS policy (Washington Report). Sept/22  
 Managing the transition to a certified toxicology lab. Sept/58  
 OSHA rules on AIDS protection due by Dec. 1 (Washington Report). Nov/21  
 Q-Probes: A tool for enhancing your lab's QA. Nov/37  
 Medicare weighs outpatient, lab bundling schemes (Washington Report). Dec/19  
 Stat testing in the new CLIA era. Dec/22

### Reimbursement

Laboratory fee roll-in studied by HHS (Washington Report). Feb/19  
 The growing crackdown on laboratory fraud and abuse. Feb/24  
 Bush '92 budget targets more Medicare cuts (Washington Report). March/19  
 Judge rejects key IG arguments in kickback case (Washington Report). May/23  
 Lab regulators gain penalty options under CLIA sanctions (Washington Report). June/23  
 Mistakes to avoid in CPT coding and billing. June/49  
 GAO urges further cuts in lab fee schedule (Washington Report). Aug/21  
 Pathologists face reimbursement cuts (Washington Report). Aug/22  
 HCFA to soften impact of physician fee schedule (Washington Report). Oct/21  
 Medicare weighs outpatient, lab bundling schemes (Washington Report). Dec/19

### Respiratory syncytial virus

(see *Infection control*)

### Result reporting

INR: A better way to report prothrombin times. Dec/25

### Retention

Which way is up? (Viewpoint). April/17  
 Satisfaction surveys improved our employee retention. May/49

### Reviews

(see *Performance standards and evaluations*)

### Risk management

(see *Safety*)

### Safety

Is your staff wise in waste management? April/24  
 New directions in Federal regulations on hazardous waste. April/31  
 The medical waste outcry: A personal update. April/40  
 Hazardous material officer: Opportunity for laboratorians. April/51  
 Preparing the small lab for a first state inspection. April/61  
 A risk management perspective on point-of-care testing. Special Issue/42

### Salaries

How lab supervisors fared on the salary front (Editor's Memo). Jan/9  
 Lab salaries make altruism still a vital component (Special Report). Jan/28  
 Why do nurses earn more than technologists? (Viewpoint). Feb/17  
 Equal pay for phlebotomists (Editor's Memo). May/9

### Screening

(see *Public health screening*)

### Send-out tests

(see *Referral laboratories*)

### Shortage

(see *Personnel shortage*)

### Staff morale

Let's look at the bright side (Viewpoint). Jan/16  
 Helping the plateaued employee reach a new level of confidence. Feb/37  
 Managing change in troublous times. Sept/24  
 Turning around the behavior of uncooperative employees. Oct/59

### Staff relations

Turning around the behavior of uncooperative employees. Oct/59

### Staffing

Cross-training: Boon or bane? (Editor's Memo). Aug/9  
 Technology's answer to labor and resource constraints. Special Issue/32

### Standards, performance

(see *Performance standards*)

### Stat testing

Stat testing in the new CLIA era. Dec/22

### Strategic planning

(see *Planning*)

### Stress and burnout

Ethics and the clinical laboratory (Part I): How ethical dilemmas induce stress. July/28

### Technical procedures

(see *Procedures, policies, protocols; Technology*)

### Technology

(see also: *Computers*)

Strengthening the weak links in lab services. May/30  
 The winds of change are blowing in the lab (Viewpoint). Aug/19  
 Personal computers in the clinical laboratory (Part I): Available in most labs, fully utilized by few (National Survey). Aug/24  
 Personal computers in the clinical laboratory (Part II): Fighting resistance, many use PCs in wise and creative ways (National Survey). Aug/32  
 Why testing is being moved to the site of patient care. Special Issue/2  
 The evolving needs of critical care. Special Issue/6  
 Meeting the special needs of the open heart surgery patient. Special Issue/12  
 Monitoring versus testing technologies: Present and future. Special Issue/20  
 Technology's answer to labor and resource constraints. Special Issue/32  
 A respiratory care view of point-of-care blood gas and electrolyte testing. Special Issue/37  
 A risk management perspective on point-of-care testing. Special Issue/42  
 How accelerated regulation will affect point-of-care testing. Special Issue/47  
 High tech gone awry (Editor's Memo). Sept/9  
 Running a laboratory in the Information Age (Viewpoint). Oct/17  
 Stat testing in the new CLIA era. Dec/22

### Test processing

Strengthening the weak links in lab services. May/30

### Test reporting

(see *Result reporting*)

### Training programs

(see *Education*)

### Turnaround time

Stat testing in the new CLIA era. Dec/22

### Turnover

Satisfaction surveys improved our employee retention. May/49

### Unions

Unions win organizing victory (Washington Report). June/24

### Universal precautions

(see *Infection control*)

### User groups

Starting a user group for a chemistry analyzer. July/44  
 A community blood center user group. July/47

### Vendor relations

Dynamics of the lab-vendor relationship. March/41  
 How someone could make a fortune by marketing good laboratory computers (Computer Dialog). May/75  
 Pitfalls to avoid in bringing a new analyzer on line. Sept/28

### Waste disposal

Is your staff wise in waste management? April/24  
 New directions in Federal regulations on hazardous waste. April/31  
 The medical waste outcry: A personal update. April/40  
 Hazardous material officer: Opportunity for laboratorians. April/51  
 Recycling xylene saves money and the environment. July/55

## 1991 Editorial Index

### Preventive maintenance

(see *Instrumentation*)

### Problem employee

Techs are lax in following up technical problems. Jan/81  
MT threatens to quit over reassignment. Jan/81  
Is it everyone's job to answer the phone? Jan/84  
Worker claims she's a victim of "the system." Feb/65  
Data processing manager slows LIS implementation. Feb/66  
Employee distorts reasons for being disciplined. May/82  
Worker's passive resistance wreaks havoc. June/77  
Employee wants "summer hours"—or he'll quit. July/79  
Leave of absence hasn't stopped MT from gambling. July/80  
MT resists learning computerized instrument. Aug/77  
Employee is suspected of stealing small supply items. Sept/72  
MT takes long sick leaves, followed by vacations. Oct/76

### Problem lab manager

M.B.A. lab manager relies too much on egotistical MT. April/75  
Computer-shy lab director won't implement new LIS. Aug/75  
Lab manager won't address gross errors. Dec/46

### Problem supervisor

Data processing manager slows LIS implementation. Feb/66  
Abusing compensatory time off policy. Feb/68  
Supervisor pushes his wares on an unwilling staff. March/72  
Supervisor won't work harder despite raise. April/75  
Drill sergeant supervisor cuts down staff morale. July/82

### Procedures, policies, protocols

Abusing compensatory time off policy. Feb/68  
Should blood bank MTs collect specimens? May/79  
Staff abuses lenient policy for leaving work early. May/79  
Employee is suspected of stealing small supply items. Sept/72  
Equipment breakage repeatedly goes unreported. Oct/78

### Productivity

Data processing manager slows LIS implementation. Feb/66  
Section heads' work interrupted by tête-à-têtes. March/72  
Worker's passive resistance wreaks havoc. June/77  
Leave of absence hasn't stopped MT from gambling. July/80

### Professional image and status

Should lab staff wear scrub suits? March/74

### Promotions

Choosing between two qualified job candidates. July/79

### Purchasing

Persuading administration that lab needs new analyzer. Nov/72

### Quality assurance

Nursing director retaliates for nursing-lab problems. May/80

### Quality control

Supervisor tells staffers to falsify QC results. March/71

### Raises

(see *Salaries*)

### Regulations

Problems in enforcing AIDS precautions. April/76  
Lab manager won't address gross errors. Dec/46

### Result reporting

Who should give test results to MDs? Sept/69

### Rotation

Creative scheduling ideas for second and third shifts. Jan/82  
Rotate entire staff in vacant evening shift spot? April/76  
Woes of a one-person 12-hour night shift. Dec/45

### Salaries

Supervisor won't work harder despite raise. April/75  
Is section supervisors' pay history inequitable? Nov/71

### Scheduling

Creative scheduling ideas for second and third shifts. Jan/82  
Rotate entire staff in vacant evening shift spot? April/76  
Employee wants "summer hours"—or he'll quit. July/79  
At 11th hour, technologist reneges on promise to fill in. Aug/78  
MT takes long sick leaves, followed by vacations. Oct/76  
Woes of a one-person 12-hour night staff. Dec/45

### Shortage

(see *Personnel shortage*)

### Staff morale

What to do when staffers express a negative attitude. Feb/66  
Drill sergeant supervisor cuts down staff morale. July/82  
MT takes long sick leaves, followed by vacations. Oct/76

### Staff relations

When not to solicit suggestions from your staff. Feb/65  
Staff abuses lenient policy for leaving work early. May/79  
Employee distorts reasons for being disciplined. May/82

### Staffing

How to access the quality of a temp agency. March/71  
Persuading administration to cut supplies, not FTEs. June/77  
Employee claims he found a sub, but no one showed up. Nov/72

### Stress and burnout

Worker claims she's a victim of "the system." Feb/65  
Woes of a one-person 12-hour night staff. Dec/45

### Supervisor's role

Supervisor pushes his wares on an unwilling staff. March/72

### Telephone issues

Is it everyone's job to answer the phone? Jan/84  
Answering the telephone at hectic times. April/78

### Training

MT resists learning computerized instrument. Aug/77  
Appropriate to train non-technologist on LIS? Aug/78  
Should lab get more involved in bedside testing? Nov/74

### Turnaround time

Helping MDs understand that good work takes time. Dec/48

### Unions

Union organizer interferes with lab operations. June/80

## TIPS ON TECHNOLOGY INDEX

Absolute eosinophil count. April/12  
ACT versus PTT. Jan/11  
Activated clotting time. Jan/11  
Activated partial thromboplastin time. Dec/14  
Agglutinins, cold. June/14  
Alpha-fetoprotein. Feb/14  
Amniocentesis. Feb/14  
Anal group A strep specimens. Jan/12  
Antibody screening. Oct/11  
Apt test. June/16  
Bedside results vs. venous glucose values. July/16  
Bile drainage crystals. April/14  
Bilirubin precision. May/14  
Bilirubinemia, neonatal. Aug/17  
Blood culture contamination rate. Sept/14  
Blood film preparation. May/12  
Blood salvage, intraoperative. July/14  
Blood specimens from an IV line. Jan/14, May/12, Nov/12  
Brain death and blood transfusions. Oct/11  
Capillary-venous glucose values. July/16  
CK isoenzymes. July/16, Nov/11  
CK-MB. Feb/11, Nov/11  
CK, total. Feb/11, Nov/11  
Clostridium difficile latex testing. Aug/14  
Clostridium perfringens. July/13  
Clue cells in vaginal wet preps. Aug/13  
Coagulation testing, duplicate. Sept/13  
Cold agglutinins. June/14  
Contamination rate, blood culture. Sept/14  
Corrected reticulocyte counts. Aug/13  
Creatinine clearance, nomogram for. March/14  
Cryptosporidium in feces. Dec/11  
Culture, blood. Sept/14  
Cutoff values for CK and LD. July/16  
CV. May/14  
Diabetes. March/11, Dec/11  
Differential count. April/12, May/12  
Disposal of infectious waste. Feb/12  
Drawing blood from patients with IVs. Jan/14, May/12, Nov/12  
Duplicate PTs and PTTs. Sept/13  
Eosinophil count. April/12  
Erythrocyte sedimentation rate. April/11  
Fecal Cryptosporidium. Dec/11  
Fibrin on blood films. May/12  
Flipped LD1/LD2. April/12  
Flow cytometric reticulocyte count. Aug/13, Dec/12  
Gallstones. April/14  
Gardnerella vaginalis. Aug/13  
Gestational diabetes. March/11  
Glucose tolerance test. March/11, July/16, Dec/11  
Gram stain on unusual sources. July/13  
Hemodilution. July/14  
Hemoglobin F acid elution test. June/16  
Heparin monitoring. Jan/11  
Heparin-sensitive PTT. June/13  
High T<sub>3</sub>. March/11  
Hypercalcemia in malignancy. March/12  
Infectious waste disposal. Feb/12  
Intraoperative blood salvage. July/14  
Iron and transferrin results. Feb/11  
IV line, blood specimens from. Jan/14, May/12, Nov/12  
Kleihauer-Betke test. June/16  
LD isoenzymes. April/12, July/16  
LE prep on pleural fluid. July/13  
Low maternal serum AFP. Feb/14  
Miller disc for reticulocyte counts. Dec/12  
Mountain cedar pollen. Sept/16  
Myocardial infarction. April/12, Nov/11, Dec/12  
Myoglobin, urine. Feb/12  
Neonatal bilirubinemia. Aug/17  
Normal total CK and high CK-MB. Feb/11  
Organ transplants from brain dead. Oct/11  
Organic solvent polarity. April/11  
Overutilization by replicate testing. June/13  
Parathyroid hormone. March/12  
Partial thromboplastin time. Jan/11, June/13, Sept/13  
pH of buffer for extraction. April/11

## 1991 Editorial Index

Platelet count. Aug/17  
Platelets and cold antibodies. Aug/17  
Pleural fluid, LE prep on. July/13  
Polarity of organic solvents. April/11  
Prothrombin time. Sept/13, Dec/14  
QC for RBC indices. Nov/14  
Quality control rules. Jan/14  
RBC indices, QC for. Nov/14  
Replicate testing. June/13  
Reticulocyte count. Aug/13, Dec/12  
Sedimentation rate. April/11  
Semen analysis. May/11, Sept/13, Nov/14  
Spermatid. Sept/13  
Stool guaiac test. June/16  
Streptococci, group A. Jan/12  
Syphilis testing. Nov/11  
T<sub>3</sub>, high. March/11  
T<sub>4</sub>. March/11  
Total bilirubin. May/14  
Total iron-binding capacity. Feb/11  
Transferrin and iron results. Feb/11  
Transfusing the brain dead. Oct/11  
Trichomonad detection. Jan/11  
Troponin and heart attack. Dec/12  
24-hour urines. March/12, Oct/12  
Unlabeled specimen policy. Oct/14  
Urinary tract infection. May/11  
Urine culture criteria. May/11  
Urine myoglobin. Feb/12  
Urines, 24-hour. March/12, Oct/12  
Vaginitis. Aug/13  
Validity of test results from expired tubes. Dec/14

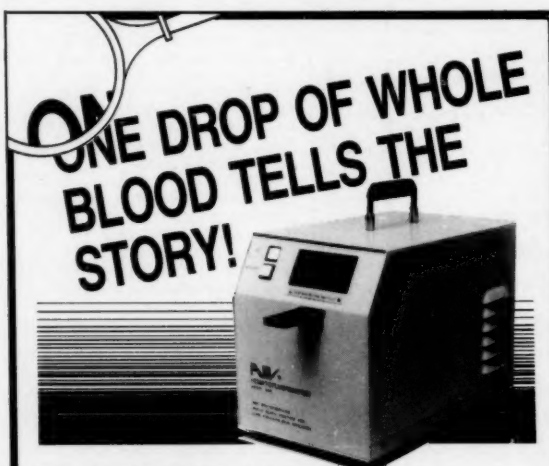

VDRL test. Nov/11  
Waste disposal, infectious. Feb/12  
Westergren sedimentation rate. April/11  
Westgard rules. Jan/14  
Wound exudate, Gram stain of. July/13

## WASHINGTON REPORT INDEX

CLIA issues help unify lab groups. Jan/25  
Laboratory fee roll-in studied by HHS. Feb/19  
Bush '92 budget targets more Medicare cuts. March/19  
CDC weighs stronger AIDS precautions. April/19  
Judge rejects key IG arguments in kickback case. May/23  
HCFA announces CLIA sanctions. May/26  
Lab regulators gain penalty options under CLIA sanctions. June/23  
Unions win organizing victory. June/24  
CLIA costs under study. June/24  
CLIA '88 lurches ahead as Congress prods. July/23  
GAO urges further cuts in lab fee schedule. Aug/21  
Pathologists face reimbursement cuts. Aug/22  
Safe harbor regs clarify physician lab investments. Sept/21  
CAP reviews AIDS policy. Sept/22  
HCFA to soften impact of physician fee schedule. Oct/21  
JCAHO to allow Ph.D. lab directors. Oct/22  
OSHA rules on AIDS protection due by Dec. 1. Nov/21  
Hanlester decision overturned, sent back. Nov/22  
Medicare weighs outpatient, lab bundling schemes. Dec/19
